PROJECTS

Clue Delivery Device

Kit Escape Room

This is a device that removes much of the human labor aspect from running an escape room. This device uses a Raspberry Pi to read a rfid tag to automatically lookup the clue assigned to that tag and display that clue on a local screen.

Game Engine

Personal project

 Dec 2021 – Current

This is a game engine I have been working on in my free time as the math involved interest me and is something to exercise my brain on.
